### Product Description

The amaran Pano 120c Light Control Grid is a 45° fabric control grid designed for creators who need greater directionality and control out of their amaran Pano 120c panel light, while maintaining a soft, diffused glow when paired with the Softbox. Featuring a hook-and-loop setup and collapsible design, the Light Control Grid provides an effortless way to sculpt and refine your light output.

**Soft yet directional lighting.** When paired with the Softbox, the Light Control Grid minimizes light spill and focuses your soft light output into a directional, 45° light source. Whether highlighting subjects or adding contrast to your scene, the Light Control Grid brings control and precision to every shot.

**Quick and effortless setup.** Designed to fasten securely over the amaran Pano 120c Softbox, it features a hook-and-loop attachment to easily attach and remove the Light Control Grid without interrupting your workflow. And with its compact, collapsible design, the Light Control Grid is the ideal portable lighting accessory.
