

amaran Lantern 90 One Sheet

Main Features

- **90cm (3ft) large omnidirectional** Bowens Mount soft light modifier
- **Wide, spherical design** for delivering more expansive, soft ambient lighting in all directions when filling larger studios or on-location spaces
- **360° soft light source** for wide-angle shots with greater coverage
- **Quick-build press mount design** for faster setups
- **Universal Bowens Mount:** Compatible with amaran COB lights and other Bowens Mount fixtures
- **Included carrying bag** for easy transportation

Target Audience

The amaran Lantern 90 is ideal for creators looking to create more extensive, soft ambient lighting with Bowens Mount LEDs that fills every corner of your scene with a larger, 90cm (3ft) diameter. Its spherical, omnidirectional design mimics natural light to instantly fill any environment with evenly diffused light – from lighting larger studio shoots for wide-angle shots to elevating spaces into an inviting atmosphere for any video content.

Its quick-build design makes it easy to set up and dismantle, making it a convenient choice for content creators in fast-paced shoots or those frequently changing locations or setups during events, allowing you to spend less time on setup and more time creating.

Product Description

The amaran Lantern 90 is a 90cm (3ft) omnidirectional modifier built for filling larger spaces with soft, ambient lighting. Featuring a quick-build design, this wide, spherical light modifier transforms hard point-source LEDs into a soft, 360° lighting solution with a more even and expansive range for wide-angle shots and larger studio setups in seconds.

Quick-build design for faster setups. Like traditional lantern modifiers, the amaran Lantern 90 uses the same quick-build press mount to snap into its spherical shape. By pressing down to attach the hooks to the frame, you can transform any large space with soft, even lighting in seconds, making it faster and easier to build and break down your softbox. Say goodbye to cumbersome gear so you can focus on bringing your creative ideas to life.

One modifier for all your Bowens lights. Featuring the universal Bowens Mount, the amaran Lantern 90 is compatible with a wide array of Bowens Mount fixtures, offering flexibility for any creative project or immerse lighting setup. This expansive modifier delivers a larger and softer glow in all directions, making it perfect for ambient fill lighting and creating a natural atmosphere over larger surface areas – for studio setups, interviews, on-location, and larger open spaces that need a wide coverage.

Portable, travel-friendly design. Produce soft, even lighting wherever your shoots may take you. Designed for studio creators looking for minimal bulk and maximum convenience when travelling between setups, the amaran Lantern 90 is the perfect companion for any creation. And packed in a carrying bag, this lightweight modifier makes transport a breeze, while providing a fast and seamless experience from setup to shoot.
