

Productname: camRade tripodBag heavyDuty
SKU: CAM-TRIPB-HD
EAN/UCC: 8718591672811

Resistant against:

Description

In this tripodBag heavyDuty you can safely transport your high-end tripod with fluid head (with a maximum length of 108 cm / 42.5 inch) in the most convenient way possible.

The adjustable bumpers allows you to customize the interior of the bag. Four separate compartments (with zipper) inside the bag offer space to store various accessories. On the side of the bag another zippered pocket is located including a small transparent pocket for identification of your bag and/or contents.

This bag has a rectangular design which, in addition to providing maximum protection and making the bag easy to stack, reduces the risk of the bag rolling off trolleys or conveyor belts during your travels.

A strong and smooth running wheel set is added to the bag for minimum strain when traveling. Also included is a small mesh fabric basket you can attach between the tripod legs for easy access to small items/tools during your shoot.

Key features

- Suited for tripods up to 108 cm and 42.5 inch
