Product Description

The amaran Verge Max Light Control Grid is a 45º fabric control grid designed for creators who need greater directionality and control out of their amaran Verge Max circular panel light. Featuring a clip-on attachment and collapsible design, the Light Control Grid provides an effortless way to sculpt and refine your light output.

Soft yet directional lighting. The Light Control Grid minimizes light spill and focuses your soft light output into a directional, 45º light source. Whether highlighting subjects or adding contrast to your scene, the Light Control Grid brings control and precision to every shot.

Quick and effortless setup. With 5 included clips that snap directly onto the circular frame of the amaran Verge Max light, you can easily install or remove the Light Control Grid without disrupting your workflow. And with its collapsible grid and frame, the Light Control Grid can be easily set up and stored.
