Target Audience

The amaran Verge is an edge-lit panel built for desktop-based creators – from **livestreamers, gamers, vloggers, and social media influencers to remote workers** – who need soft, reliable lighting for long sessions at their desk.

With front-facing knob controls for quick adjustments and full wireless control via the amaran Desktop App and Stream Deck plugin, the amaran Verge lets you stay in frame and in control. Make lighting adjustments in real-time without disrupting your content, stream, or workflow – whether you're **recording, presenting, or engaging with your audience**.

For creators spending hours on-camera or in meetings, the amaran Verge's RG0-certified design delivers flicker-free, glare-free illumination that's **built for long days, and longer nights** – perfect for all-day streaming, back-to-back calls, or reducing eye fatigue throughout the day.

For **creators looking to personalize their setup**, the amaran Verge offers flexible mounting options onto a Desk Stand, Desk Clamp, or Light Stand, so you can build the setup that fits your workflow best. And with White or Charcoal color options, the amaran Verge blends effortlessly into any light or dark workspace aesthetic.

Product Description

The amaran Verge is a bi-color, edge-lit rectangular panel light designed for desktop creators, delivering soft, true-to-life lighting that fits seamlessly into any desk setup. With edge-lit output that's soft on the eyes and multiple ways to control – including front-facing knobs, the amaran Desktop App, and Stream Deck integration – the amaran Verge is built to elevate how you light and create.

Multi-control options for desktop. Take full control of your lighting with multiple options tailored for desktop setups. As the first desktop panel with front-facing knobs, the amaran Verge grants immediate access to brightness and color temperature adjustments – from warm to cool – without reaching behind your setup. For more advanced customization, fine-tune exact values or trigger lighting effects wirelessly via the amaran Desktop App, or integrate seamlessly into your streaming workflow with the Stream Deck plugin.

True-to-life, soft edge-lit output. Wrapped with edge-lit LEDs for indirect illumination, the amaran Verge emits a soft, evenly diffused glow that wraps gently around your face – minimizing harsh shadows while recreating flattering, true-to-life skin tones that make you and your content shine. Whether you're streaming, presenting, or recording, the amaran Verge ensures you always look your best.

Soft on the eyes for all-day creation. The amaran Verge is the perfect lighting companion for all-day streaming, extended work sessions, or creating for hours on end without eye strain. RG0-certified for the highest level of eye safety and comfort, the amaran Verge eliminates UV light, minimizes blue light, and delivers flicker-free, low-glare lighting that's soft on the eyes – even during extended use.

Customized mounting for any setup. Whether placed onto a desk stand, clamped to the edge of your desk, or mounted on a traditional light stand[1], you can easily customize your setup with flexible mounting options that fit any creative environment. With the amaran Verge Lock mounting system that is quick, easy, and hidden from view, you can achieve precise height and angle adjustments – all while keeping your setup clean, secure, and clutter-free.

Lighting that blends into your workspace. Available in White or Charcoal, the amaran Verge is designed to complement a wide range of creative environments – from clean and minimal setups to bold and dark spaces. And with streamlined USB-C PD power, it offers a simplified, clutter-free solution that adapts to your gear, keeping your setup minimal, organized, and ready to create.
