

STORM 700x 8-Pin Cable (15m)

Product Description

The STORM 700x 8-Pin Cable (15m) is a longer 15-meter head cable designed for the STORM 700x, which includes a standard 7.5-meter head cable. By extending the distance between the lamp head and control box, this cable enables users to mount the fixture higher on light stands, trusses, or other rigging setups while keeping the control box accessible from the ground.
