Product Description

The amaran Ace Lock to Baby Pin Adapter Grip is a multi-functional, quick-release adapter grip for attaching portable battery systems or adapters to Ace Lock-compatible lights like the amaran Ray 60c and 120c. Whether handheld or stand-mounted, it streamlines mobile workflows by keeping power close, cables tidy, and setups fast.

One-second setup with the amaran Ace Lock. Featuring the amaran Ace Lock quick-release mechanism, mount your Ace Lock-compatible light in seconds for a secure, stable installation. Fine-tune your light's angle with the integrated tilting bracket for easy and precise control.

Secure, custom-fit silicone strap. The integrated silicone strap on the side of the Adapter Grip wraps securely around battery systems like the amaran Peak, power adapters, V-Mount batteries, or power banks, and locks into its built-in slot for a secure hold. It's thick, high-tension build provides durable support without scratching or slipping, letting you power your shoots with confidence.

Baby pin connector for flexible mounting. Featuring a standard 5/8 (16mm) baby pin receiver at the bottom of the Adapter Grip, it allows for easy mounting to light stands and other gear for static, stand-mounted applications. Or transform into a mobile lighting setup when using the Adapter Grip handheld.
