

amaran Mic Desktop Stand Kit One Sheet

Main Features

- **Wireless desktop microphone** for creators recording livestreams, podcasts, and everyday videos
- **Studio-quality audio:** 30mm dynamic supercardioid capsule that puts your voice front and center
- **Built-in Standard & AI Noise Reduction modes** for light cleanup of steady background noise and deeper cleanup of unpredictable distractions
- **6-layer noise reduction** across acoustic suppression, physical protection, & built-in processing for clean audio
- Create without limits: Connect via **wired USB-C** or go wireless with included **USB-C receiver**
- **Stable 2.4GHz wireless transmission** up to 50m (164ft) in unobstructed environments
- Up to **60 hours of battery life** to sustain week-long recording sessions
- **USB-C plug-and-play setup:** Start recording instantly on your computer or phone with no sound card or complex setup required
- **Instant on-mic controls:** Switch noise reduction modes, adjust gain levels, mute, check battery life on mic
- **Advanced voice customization** via **amaran Desktop App:** Shape your tone with EQ presets & custom curves, Vocal Enhancement, Noise Gate, and Limiter controls
- Clean and clear audio capture with **86dB SNR**
- Handle loud moments without clipping with up to **130dB SPL** and **built-in automatic limiter**
- **48kHz / 24-bit** Hi-Fi audio recording for detailed sound
- **Direct audio monitoring** via 3.5mm headphone jack
- Weighted **desktop stand** for a clean, compact footprint on your desk
- Available in **White** or **Charcoal** to match your setup
- **Pre-paired USB-C receiver** connects automatically out of the box for a faster wireless setup
- **Included USB-C to USB-A adapter** for connection to compatible devices with USB-A ports

Product Description

The amaran Mic is a wireless desktop microphone for creators, designed to deliver studio-quality audio for livestreaming, podcasting, and everyday videos from your desk. With a 30mm dynamic capsule, built-in noise reduction, wired and wireless recording, and intuitive on-mic and software controls, the amaran Mic makes clear, natural sound easy to capture without a complex setup. This Desktop Stand Kit keeps the mic ready on your desk with a clean, compact footprint for everyday creation.

Studio-quality sound, right from your desk. Built with a large 30mm dynamic supercardioid capsule, the amaran Mic captures rich, natural audio with an 86dB signal-to-noise ratio, putting your voice front and center while dialing back the room around you. With support for sound pressure levels up to 130dB and a built-in automatic limiter, the amaran Mic keeps audio clean and controlled through sudden spikes – so you can laugh, cheer, and react without clipping.

Clean audio, even in noisy environments. The amaran Mic keeps voices clear with noise reduction that runs inside the mic, minimizing background distractions in real time without relying on your computer to do the heavy lifting – from light cleanup of fan noise and AC hum with Standard Noise Reduction to deeper cleanup of unpredictable distractions like keyboard clicks and traffic noise with AI Noise Reduction. Backed by six layers of noise reduction across acoustic suppression, physical protection, and built-in processing, the result is cleaner capture with fewer pops, bumps, and unwanted noise.

Wired or wireless, ready to record. The amaran Mic gives you the flexibility to record the way you create – with no sound card or complex tuning required. Stable 2.4GHz wireless transmission up to 50m (164ft) and up to 60 hours of battery life keep long sessions running with no cable clutter and the freedom to move. For a simple plug-and-play wired setup, connect to a computer or phone via USB-C and start recording in seconds.

Instant controls, right on your mic. Whether reacting in the moment or switching between takes, the amaran Mic keeps essential controls within reach for fast adjustments mid-session. Switch noise reduction modes, adjust levels with a single knob, mute your mic, check battery status, and monitor your sound in real time via the 3.5mm headphone jack – all directly on the mic. For more advanced voice customization, the amaran Desktop App unlocks EQ, Vocal Enhancement, Noise Gate, and Limiter tools in one clear dashboard to shape, clean up, and control your sound.

amaran Mic Specifications

Microphone Type	Dynamic
Polar Pattern	Supercardioid
Microphone Capsule Size	30mm / 1.18in
Audio Output	Wired: USB-C Port
	Wireless: USB-C Wireless Receiver
Max Sound Pressure Level (SPL)	130dB (10% Mic Gain)
	114dB (50% Mic Gain)
Signal-to-Noise Ratio (SNR)	86dB
Noise Reduction	Multi-Level Standard Noise Reduction (Mild, Moderate, Strong), AI Noise Reduction
Battery Capacity	3,000mAh
Charging Method	USB-C
Charging Time	2.5 Hours (0%-100%)
Charging Specification	5V/2A
Wireless Transmission	2.4GH
Transmission Range	50m / 164ft (Line of Sight)
Wireless Battery Life	Approx. 60 Hours (Original)
	Approx. 45 Hours (AI Noise Reduction Mode)
Sampling Rate	48kHz
Bit Depth	24-bit
Frequency Range	40Hz - 16kHz
Microphone Sensitivity	-8dBFS/Pa (Max)
Gain Adjustment Range	0dB - 49dB
Total Harmonic Distortion	0.2% (at 1kHz)
Real-Time Monitoring	Supported
Audio Monitoring Latency	<20ms (Original Mode)
Control Methods	On-board, amaran Desktop App
Desktop App Control	Supported
Firmware Upgradable	amaran Desktop App
Operating Temperature	-10°C - 40°C / 14°F - 104°F
Charging Temperature	0°C - 40°C / 32°F - 104°F
Verified Expanded Device Compatibility¹	Select computers, phones, mobile and desktop software, handheld cameras, gaming consoles, mirrorless cameras, and audio recorders.

¹ Compatibility varies by device, software, and connection method.
